

The map shows the Central Valley of California with various geographical features and flight paths. A red box highlights the 'NASA CROWS LANDING (CLOSED)' area near Crows Landing. A blue box highlights the text 'NASA FLIGHT TEST OPERATIONS CONDUCTED IN THIS AREA BELOW 2500 MSL'. The map includes various geographical features like mountains, rivers, and towns, as well as flight paths and altitudes.

UAS flight operations will be conducted in an area within approximately two nautical miles of the runways, excluding any areas within one mile of Interstate 5 or the towns of Crows Landing and Patterson. The maximum altitude will be 1,000 feet MSL.
