TO: Mr. Karl Hedrick
Center for Collaborative Control of Unmanned Vehicles, UC Berkeley

FROM: Mr. Douglas L. Smith, Co-Chairman
Airworthiness & Flight Safety Review Board, Ames Research Center

Mr. Munro G. Dearing, Chairman
Flight Readiness Review Board, Ames Research Center

SUBJECT: UC Berkeley Rascal Airworthiness Statement and Flight Release

NASA Ames Research Center has completed a formal review in accordance with NASA policy APR 1740.1 and has granted the Rascal UAS an airworthiness statement and flight release.

The Rascal UAS is authorized to conduct flights within the airspace at Crows Landing following the issuance of a FAA Certificate of Authorization (COA) and subject to the following conditions of operation:

1) Alterations to the aircraft/ground systems or integration of new payloads will be subject to further review and approval by the AFSRB and FRRB.
