TO: Mr. Matthew Whalley, RMAX Project Manager
Autonomous Rotorcraft Project, AFDD

FROM: Mr. G. Warren Hall, Chairman
Airworthiness & Flight Safety Review Board, Ames Research Center

Mr. G. C. Tiffany, Chairman
Flight Readiness Review Board, Ames Research Center

SUBJECT: RMAX Airworthiness Statement and Flight Release

NASA Ames Research Center has completed a formal review in accordance with NASA policy APR 1740.1 and has granted the RMAX UAV an airworthiness statement and flight release.

The RMAX UAV is authorized to conduct flights within the airspace at Moffett Federal Airfield in accordance with the requirements of the current and applicable Certificate of Authorization (COA) issued by the FAA.
