Attachment 12 Pilot Currency Status

The Pilot in Command (PIC) will be current during the operation. In order to maintain currency the PIC must perform a minimum of three qualified proficiency events within the past 90 days with the unmanned aircraft. In the event a pilot has not performed three qualified events in the preceding 90 days, the pilot may perform the required number proficiency events through training flights. Actual USDA-ARS mission flight shall not be used for purposes of training pilots or observers or for obtaining currency.
