## DRONES WITHOUT REMOTE ID: FLYING IN A FRIA

- A FRIA is an FAA-recognized Identification Area where drones can be flown if they don't have Remote ID equipment
- To operate a drone without Remote ID in a FRIA;
  - Both the drone and the pilot must be located within the FRIA's boundaries throughout the operation
  - The pilot of the drone must be able to see it at all times throughout the operation
- **Locations of approved FRIAs** are available on the FAA's UAS Data Delivery System
