

THE GOLD STANDARD FOR AVIATION SINCE 1935

DACSC TG1 Status Update

Co-Chairs :
Dr. John Eagerton, Brendan Schulman

Task Group 1

Tasking Statement (Reminder)

The (big, audacious, transformative) TASK:

- Develop a set of consensus based recommendations :
 - the roles and responsibilities of federal, state, and local governments in regulating and enforcing drone laws
- Consider and include recommendations regarding:
 - Defining low-altitude UAS navigable airspace susceptible to State/local governmental interests;
 - Relative roles and responsibilities of the Federal, State and local governments;
 - Enforcement;
 - Education;
 - Technological tools and solutions;
 - Local government operational issues

Progress Report

- Incorporated guidance from last DAC meeting
 - Focus more on Roles & Responsibilities task item
- RTCA Added new member and observer participants (local/state government)
- Three days of in-person TG meetings (May 25, July 10-11) and a conference call (June 14)
- Extensive discussion on governing models based on altitude

Progress Report

- “Matrix” of existing roles and responsibilities
- Fact gathering from two additional law enforcement SMEs
- Altitude observations “field trip”

Progress Report

- TG1 continues to work towards developing consensus recommendations
- Timeline: Will proceed with urgency, and work to deliver initial recommendations by November (the next DAC meeting), with further guidance from FAA and DAC as to what is most useful
